

Sports Funding

Sports Funding for schools is an initiative launched by central government in 2013. It is an additional monetary allocation to the main school budget. The Sports funding is part of a government commitment to inspire the nation to enjoy sport, starting with enhancing the provision of facilities in every state primary school.

Schools will choose how to spend this funding and will be held to account regarding its expenditure. Schools will need to ensure it is spent towards high-quality PE and sport provision.

The Department for Education suggest schools consider using this funding for:

- hiring specialist PE teachers or qualified sports coaches to work with primary teachers when teaching PE
- supporting and engaging the least active children through new or additional Change4Life clubs
- paying for professional development opportunities for teachers in PE and sport
- providing cover to release primary teachers for professional development in PE and sport
- running sport competitions, or increasing pupils' participation in the School Games
- buying quality assured professional development modules or materials for PE and sport
- providing places for pupils on after school sports clubs and holiday clubs
- pooling the additional funding with that of other local schools.
